CALL OF RE4CH:

How much longer do we have to protest for our rights? Is there any justice? Who will answer our call? We have been tired for years, but we are still fighting for our rights. Why are we being marginalized and discriminated? What is the meaning of democracy? When we were in our countries of origin, we knew the difference between democracy and dictatorial regimes. Today, when we analyze the great European Union, things are a lot more complicated. We hope that there will be an end to our suffering soon. Because we believe that helpless refugees should not be persecuted or punished in democratic countries. Stop deporting hopeless refugees to the lawless countries inside the European Union. Stop the racist Dublin II and III regulations.*

*The so called "Dublin Regulation" is a European law that determines which member state is responsible for the examination of an asylum application. Usually, these are the states along the borders of the EU, since most refugees arrive there. Once registered, asylum seekers cannot apply for asylum anywhere else. However, this does not only lead to an unequal distribution of refugees within the EU, but also causes a great amount of suffering. Countries like Italy don't provide any support for refugees. Homelessness, severe poverty and almost no medical support are the prevalent consequences of this policy.
